" Buy China and Glass Right,"

OF IMPORTANCE.

There are so many so-called "Alteration Saies." "Fire Sales." "Bargain Sales." "Removal Sales." "Etc. that it is with hesitancy we use this term; yet those who have followed our advertising for the past ten years have learned that whatever we advertise to do we do do. The plans we have in view compel us to reduce our stock, or else suffer great loss from handling and breakage.

Here's the plan: We have acquired the property No. 54 WEST 22D ST. indivining our present atores, on which a new, modern seven-story building will be erected as soon as the present building can be removed, which we will occupy in connection with our present stores. Many changes will take place—one entire floor will be devoted to Glass. Dinner Ware Department will be on main floor. Offices all go to new building—an arch here—sairway there—a new elevator—a large portion of stock is to be transferred to the new building, and so it will be throughout, changes everywhere.

Capenters, Masons, Plumbers, Painters, etc., are not to be desired in a China Shop; yet they are coming full force on July 1st, and for this reason we want to get serry dollar, worth of goods out of their way that is possible. To accomplish this we shall from day to day throw on our Bargain Tables goods from every department at mere traction of their real value. A chance of this kind is seldom offered, and we are sure a prompt response ou your part will be most gratifying and profitable to you.

The first week of this sale was most gratifying, accomplishing as we did the one object in view, viz., "reducing stock." Profits for the time being are entirely loss sight of, our customers receiving the benefit.

The second week, commencing Monday, June 1, will be even more interesting. Never a better time to buy china than NOW.

Nowhere else can shoes in these colors or of this exact style be purchased. This particular shoe is designed to gain favor with extreme tashion, but not at the expense of comfort. It is wide across the sole, but narrow in the uppers. There is plenty of room where the foot and toe require it, but no surplus.

They are made in two weights of soles (turns and welts, so that they are suitable for light dress or serviceable street wear.

"Why is it difficult for a chairmaker to succeed?" "Because everybody is down on

his work."

The chair stock is one of the most important in our vast establishment. We can suit you in almost anything in the way of a chair, from a kitchen chair at 25c, a dining chair at \$1.00, to an elaborate leather covered article

To-day we call your attention to three special patterns, which we consider remarkably good value:

\$1.00—Solid Oak Chair, high back, well braced, fine cane seat, legs rein-forced by extra rungs, a very sub-stantial article, and worth at least \$1.50.

\$1.25 Solid Oak Chair, very choice design, high carved back, well braced, having 8 fancy turned spindles, fine cane seat, polished finish, and worth at least \$2.00.

\$1.50 Solid Oak Chair, a very popular pattern, polished, quartered sawed oak, very heavy frame, large, roomy seat, extra fine cane; would be considered cheap at \$2.50.

We are anxious for your patronage. The advantages in dealing here are greater than anywhere else in this city-come in and let us prove it.
